**NEON AN – 601**  
**(LINER WITH WHITE SPIRIT BASIS )**  
Technical File

---

**DESCRIPTION:** NEON ASTARI AN - 601 is an emulsion-based acrylic resins, organic solvents, and has high penetrating ability in any porous surface. It used for outdoors. Does not create surface film, it prevents transpiration (breathing), not on who resists yellowing and unfavorable weather. Is better bonding for waterproofing with acrylic elastomeric waterproofing and painting up to benefit watercolor and acrylic plastic. Fast drying linseed oil is distinguished from and does not cause yellowing in plastic paints.

**AREA OF USE:** NEON ASTARI AN - 601 used in the area with concrete, plaster, cement panels, gypsum, asbestos - cement (eternit), lime, adhesive ceiling, the water vapor environments like bathrooms and kitchens. Recommended for exterior concrete, plaster, which will paint first or preliminary painting with solvent liner to avoid situations such as the cracking of plaster etc.

**COLOR:** Transparent

**USAGE:** NEON ASTARI AN - 601, applied by brush or roller. Use only one coat. Dilute with White Spirit 50-100%. Up to 50% when used on terraces, and up to 100% is used for the wall. Covering or consumption is 10 m<sup>2</sup> / liter depending on the unfaltering adhesion surface. The tools must be immediately washed with White Spirit.

**WARNING:** The application of the liner in wet surfaces and in conditions of high humidity, IS NOT ALLOWED. It is also not advisable to use it under 5°C

**TECHNICAL DATA:**

- Color.....Transparent
- Viscosity (30% water) Deep cup 4.....15– 60 sec
- Density.....0.81g / ml
- Covering power for full painting.....12 m<sup>2</sup>/L
- Dry residue.....20 – 22 %
- Drying time.....2 hours\
- Application temperature .....+ 5 °C to + 35 °C
- Resistance to alkalis..... exellent

**RISKINESS:** NEON ASTARI AN - 601, Attention! Is flammable should be used in appropriate container to avoid environmental pollution. Should be kept away from children (S 2), irritates eyes and skin (R36 / 38). In case of contact with skin, clean immediately with plenty of water (S 28). In case of contact with eyes, rinse immediately with plenty of water and seek medical advice (S 26). Use gloves and mask during application (S 37/39).

**PACKAGING:** The packaging is done in cans of 4L and 16L

**PRESERVING CONDITIONS:** Stored in environments with temperatures above 0°C, and in hermetically sealed packaging, for more than a year.
