NEON NS 11.24
(SOLVENT BASED ON TOLUENE & ACETON)
Technical File

DESCRIPTION: NEON NS-11:24 serves as a diluent solvent of the paint epoxite polyurethanes. This type of solvent is recommended for these products because there are fast drying properties in it and it does not create unwanted secondary products. NEON NS-11:24 can serve as a good laxative material that is used during the process of painting.

WARNING: a) Contact with an expert before use, for the right amount of NEON NS-11.24 which will be used as a diluent, excess amounts can disrupt chemical bonds of the product, its glossy finish or any other adverse sign for the product.

TECHNICAL DATA:

- Color.....Transparent
- Density.....0.81 g / ml
- Impenetrability in water.....excellent
- Application temperature+ 0°C to + 30°C

RISKINESS:

1. R10 flammable
2. R 20 harmful if inhaled
3. R 38 irritating to skin
4. S37 Use work gloves

PRESERVING CONDITIONS: Sealed in a metal package!
