**NEON NX-20.00**  
(SOLVENT BASED ON TOLUENE AND BUTYL ACETATE)  
Technical File

---

**DESCRIPTION:** NEON NX-20:00 is an aromatic solvent-based 95% toluene. It serves for dilution of nitrogen-based paints (nitro). As well as alkyd paints, solvent type epoxide. This is characterized by rapid evaporation. It's not recommended for use in high temperatures.

**WARNING:** a) Contact with an expert before use, for the right amount of NEON NX-20:00 which will be used as a diluent, excess amounts can disrupt chemical bonds of the product, his glossy or any other adverse sign for the product

**TECHNICAL DATA:**

- Color.....Transparent
- Density.....0.88 g / ml
- Impenetrability in water.....excellent
- Application temperature .....+ 0°C to + 30°C

**RISKINESS:**

1. R10 flammable
2. R 20 harmful if inhaled
3. R 38 irritating to skin
4. S37 Use work gloves

**PRESERVING CONDITIONS:** Sealed on metal package!
